DOG DAYS OF SUMMER

The dog days of summer... is a phrase you often hear people say but what does it really mean? Where does this phrase come from? Well, the dog days of summer are the most hottest and humid days of the year. And typically run from July 3rd and August 15th. This period is associated with the heliacal (sunrise) rising of Sirius, the dog star, which the ancient Greeks and Romans believe contributed to the extreme summer heat.
